

P-CYMENE

Property & Usage

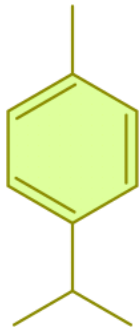

SumFlu™ p-Cymene (para-Cymene) is made by isomerization from high-quality turpentine or dipentene. It has a particular carrot or lemon-like odor and is soluble in alcohol & ether but not in water.

Usage as important raw material for fragrance, cosmetics, perfumery, detergent, soap, daily chemicals, pesticide, medicine, synthetic material, etc.

Technical Data Sheet (TDS-6200)

P-CYMENE	EXPORT GRADE
Appearance	colorless to yellowish transparent liquid
Specific gravity (d 20/4)	0.850 - 0.868
Refractive index (n 20)	1.4900 - 1.5000
Purity (GC analysis)	95-97% min.

Package & Notes

Package 175kg net in galvanized iron drum	20'FCL load 14mt (80drums)	20'FCL palletized 14mt (80drums)
Structural - C₁₀H₁₄ 	CAS Number 99-87-6/25155-15-1	EC# (EINECS#) 202-796-7
	HS Code 29021990.90	Standard industry standard
	UN NO. 2046	IMCO Class 3.3
	Storage (Flash Point 47 deg C) In cool place, avoid fire and high temperature.
